PRIMARY EXAMINER

Art Unit: 2816

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made to the subject application:

Claim 1:

Line 3, "MODFET" has been changed to --MOSFET--, "rain" has been changed to -- drain--.

Claim 6:

Lines 1-2, "(e.g. pMOS)" has been deleted; "(e.g. npn BJT)" has been deleted.

Claim 13:

Line 1, "a MOSFET" has been changed to --the MOSFET--.

The changes have been made to correct typographical errors and to provide proper antecedent basis in order to place the application in a condition for allowance.

2. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest adaptive gate voltage appearing automatically at said gate such that the MOSFER operates in the ohmic region of the drain V-I characteristic as called for in claim 1. Therefore, claims 1-13 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
